# Topics

## Smart Manufacturing

DIF2017

- The IT security aspect of digitised production
- Automation system engineering
- Servitization or selling products
- Lot size one Manufacturing
- Personalised production
- Production and product data analytics

*Send your questions to*  
[manufacturing@dif2017.org](mailto:manufacturing@dif2017.org)

# Topic 1

## Smart Manufacturing

- The IT security aspect of digitised production  
*Discussions on IT security proactivity and mitigation.*

Send your questions to  
[manufacturing@dif2017.org](mailto:manufacturing@dif2017.org)

# Topic 2

## Smart Manufacturing

DIF2017

- Automation system engineering

*Discussion on how to address engineering cost of legacy and Industri4.0 automation.*

Send your questions to  
[manufacturing@dif2017.org](mailto:manufacturing@dif2017.org)

# Topic 3

## Smart Manufacturing

DIF2017

- Servitization or selling products

*Servitization is the hype in all industries. To make this transformation - to sell services and solutions - requires significant change inside many traditional manufacturers. Companies have to recognise that the product is a platform to deliver a service.*

Send your questions to  
[manufacturing@dif2017.org](mailto:manufacturing@dif2017.org)

# Topic 4

## Smart Manufacturing

DIF2017

- Lot size one Manufacturing

*Discussion on the needs of the industry what to focus on.*

Send your questions to  
[manufacturing@dif2017.org](mailto:manufacturing@dif2017.org)

# Topic 5

## Smart Manufacturing

- Personalised production

*Production based on the online design or requirements of the end-user. Discussions on how it is possible and how it is beneficial and cost effective.*

Send your questions to  
[manufacturing@dif2017.org](mailto:manufacturing@dif2017.org)

# Topic 6

## Smart Manufacturing

DIF2017

- Production and product data analytics

*The real usage and benefits of big data analysis and cloud services. Success cases and gaps to be filled in.*

Send your questions to  
[manufacturing@dif2017.org](mailto:manufacturing@dif2017.org)
